

NorthLux™ A19 LED Bulb for Art & Studio

NorthLux™ is now available in an industry standard E26 A19 form factor. With a 95 CRI rating and 5000K or 6500K color temperature, the light is designed to simulate natural daylight from a north-facing window – perfect for supplemental or primary lighting for art and studio work.

The high color rendering and daylight balance will ensure that you can achieve consistent and constant lighting conditions regardless of location, time of day, weather or season. No more second guessing your color choices and perception!

The E26 A19 form factor fits virtually all lamps designed for standard A19 light bulbs, including table and task lamps, as well as clip-on or ceiling lamps.

**FEATURES**

- Available in 5000K or 6500K to truly simulate natural daylight
- 95+ CRI and R9 > 90
- 800-1050 lumens to replace 60-75W incandescent
